Unit 1. Task 2. Apache + MySQL + PHP + PHPMyAdmin installation

Install Apache + MySQL + PHP + PHPMyAdmin. Write a document explaining the installation process, problems, and solutions. Besides, look for some commands to check your web server. Execute them and show the web server status in your document. As you know, the document must contain screenshots.

Remember the document will be corrected according to the evaluation tool that you have in Moodle. English writing will be evaluated in a positive way.

Moreover, you must do the installation by means of a user in the command line which identifies you. If your name and surname is Mario Moreno, your user must be mmoreno.
